HUNTING CANCELLED AT SRS

AIKEN, SC (September 21) - Due to current events and resulting heightened security conditions at the Savannah River Site, all hunting activities at SRS have been cancelled until further notice.

The prohibition applies to the site's controlled deer and hog hunts, as well as to public hunting in the Crackerneck area near the western portion of SRS. Beginning October 5, SRS had 16 controlled hunts scheduled through the remainder of the year.
